

SUBJECT: Warfel Construction expands Estimating Department

East Petersburg, PA, September 21, 2011 - Warfel Construction Company recently filled three positions within its growing Estimating Department.

John Celot joined the team as a Project Estimator. He is responsible for conceptual estimating and preconstruction services on projects in excess of \$30 million. A graduate of the Pennsylvania State University with a BA in Architectural Engineering, Celot has over 15 years of construction experience. He resides in Manheim Township and was previously employed by Benchmark Construction as a preconstruction manager.

Transitioning from his position as a Project Manager with Warfel, **Judd Foelker** also joined the department as a Project Estimator. A resident of Myerstown, Foelker is a graduate of Lebanon High School and the State University of New York Maritime College with a BS in Marine Engineering. He was previously employed by Benchmark Construction and has over 15 years experience in the construction industry.

Stacey Roschel fills the newly created position of Bid Coordinator. Previously a project administrator with Warfel, she now manages the specialty contractor database and coordinates all bidding activities within the department. She is a resident of Lancaster Township and a graduate of Hempfield High School.
